

Educating and advocating
for transportation solutions
that link people with jobs and
spur economic development.

Support Transit NOW in implementing the ***Building KRM and Transit Solutions Initiative***

Your contribution is critical to our ability to build transit solutions and economic growth for SE Wisconsin. Our strength comes from our diverse supporters and members.

Three extraordinary transit opportunities that will greatly influence economic growth and quality of life are at a crossroads in SE Wisconsin:

1. Kenosha-Racine-Milwaukee (KRM) commuter rail
2. Vibrant local transit systems
3. Regional Transit Authority

Transit NOW—along with hundreds of business, elected, and community leaders—see the tremendous benefits of a modern regional transit system as crucial to the economic competitiveness and quality of life in our cities, and the region. We cannot afford to wait any longer to bring these 3 essential transit advancements to SE Wisconsin!

The ***Building KRM and Transit Solutions Initiative*** is an integrated communications strategy designed to build awareness, support, and a united voice for KRM and transit. It includes essential public outreach and consensus building, and is implemented by Transit NOW, a leader in community education and advocacy for KRM Commuter Rail, the Regional Transit Authority, and local transit systems.

Please support this vital communications effort by becoming a member or contributor.

When you become a Transit NOW supporter, you are a part of the solution, that includes comprehensive transit information on our web site at www.transitnow.org.

- Member companies or groups will be recognized as a Transit NOW Partner on our website unless otherwise requested.
